CARINTHIA®

Steeped in tradition and embracing Europe.

CARINTHIA can look back on decades of experience in insulation and keeping its customers warm and protected. We produce all our products in Europe, achieving the highest production and quality standards "Made in Europe".

Some seventy years ago, our company began to focus on the production of loden apparel, sleeping bags and outfits that protect their wearers from the cold in all climate zones and temperature ranges. Professionals trust in Carinthia. Be it on expeditions in the Arctic or Antarctica or on tours in the most adverse weather in high mountain regions ... our products withstand the most exacting demands.

An important key to success is the G-LOFT® insulation material from synthetic fiber that we developed and produce in the Carinthian town of Seeboden. Warm, light-weight and breathable – even in extremely cold and wet weather. G-LOFT® is the first insulation material to combine the benefits of natural down and the ruggedness of a synthetic fiber. And this permanently.

PREMIUM
INSULATION
TECHNOLOGY

Our professional and flexible approach to product development enables us to develop solutions for enhanced convenience and safety. Our products are developed together with experts and tested by professionals. By professionals for professionals.

G-LOFT[®] FIBER

PREMIUM INSULATION TECHNOLOGY

WWW.G-LOFT.EU

Made in Europe

Warm, light and breathable – even in extremely wet and cold weather: The revolutionary G-LOFT® insulation meets the highest standards and combines the benefits of natural down with the ruggedness of a synthetic fibre. And it is permanent. Due to the "MEMORY EFFECT" the fibres automatically return to their original and unique form, providing warmth, even after repeated washing and hard use. G-LOFT® guarantees optimal thermal insulation and heat regulation, both indoors and outdoors.

TECHNOLOGY

BI-COMPONENT-FIBER

MEMORY EFFECT: The unique airy and warming spiral shape of the G-LOFT® insulation is defined in the molecular structure of the bi-component fiber.

SPECIAL FIBER BLEND

Microfibers and low-melt fibers guarantee durable, soft G-LOFT® insulation with the least possible pack size.

NATURAL CLUSTERING

Similar to high-quality down, the G-LOFT® fibers form "clusters". Air is trapped in countless, small cushions and ensures optimal insulation.

BENEFITS

WARM & LIGHT

Maximum heat output with minimum weight: G-LOFT® is noticeably lighter and achieves a proven higher heat output at the same weight.

HIGHLY COMPRESSIBLE

The little pack size miracle: When packing and stowing, air escapes from the G-LOFT® insulation, which then quickly builds up again due to the MEMORY EFFECT.

TOP WET CONDITION PERFORMANCE

Unlike down, the G-LOFT® fiber does not absorb moisture. So it guarantees a very high heat output even in wet conditions.

HIGHLY BREATHABLE

The breathable G-LOFT® products guarantee perfect temperature regulation in the outdoor area.

HUNTING GEAR

LODEN SLEEPING BAG

The loden comfort sleeping bag is rectangular in shape and offers lots of cosy space. The inside material is a cotton-blend that guarantees unlimited comfort and pleasant sleep. Air can be conveniently let in with the 2-way zip. A drawcord in the hood lets you adjust the fit and prevents any heat loss in the shoulder and neck area. The outer material from high-quality loden does not rustle and also ensures an excellent body climate inside. Thanks to the all-round zip, the sleeping bag can be completely opened and used as a blanket, making our loden sleeping bag your universal companion on hunting excursions that last several days.

NEW

FEATURES

- Outer fabric from high-quality, water-repellent loden
- Inner lining from extremely comfortable cotton-blend
- Drawcord at the top
- All-round 2-way zip on the side
- Blanket and sleeping bag in one – thanks to the smart zip layout
- Inside pocket

MATERIAL & SPECS

Item-No.: L092150
Dimensions: 240x90 cm
Weight: 2.550g
Insulation: G-LOFT® Si 145g/m², 100% polyester
Outer fabric: 75% wool, 20% polyamide, 5% polyester
Inner lining: 65% cotton, 35% polyester

LODEN ANSITZDECKE LIGHT

LODEN BLANKET LIGHT

The loden blanket is a winter-warm, fluffy and soft protection against the cold on the tree stand. It can also be used as a comfortable cushion to sit on or as a rest for your rifle and spotting scope. When temperatures are low, it guarantees perfect heat insulation thanks to the special G-LOFT® filling. Wrapped around the body it keeps warm and provides a double, warming layer covering the front of your knees that are particularly susceptible to cold. Thanks to the carrying strap, the blanket is easy to pack and carry and can be conveniently attached to the backpack or tree stand.

FEATURES

- Soft, water-repellent loden on the outside
- Fine warp-knit fabric on the inside
- Including carrying strap

MATERIAL & SPECS

Item-No.: 92140
Dimensions: 150x180 cm | Weight: 1.500g
Insulation: G-LOFT® Hi 175g/m², 100% Polyester
Outer fabric: 30% wool, 30% polyacrylic, 32% polyester, 3% polyamide, 5% other fibers
Inner lining: 100% polyamide

LODEN ANSITZDECKE

LODEN BLANKET

The blanket can be wrapped around the body and has a button in the chest area for variable adjustment of width. By this means it provides a double protection layer for the knees that are particularly susceptible to cold. The blanket can also be secured by means of a strap around the neck. The muff in the front holds small utensils and keeps your hands warm. The blanket can also be used as a comfortable seat. Thanks to the carrying strap, the blanket is easy to pack and carry and saves space.

FEATURES

- High-quality, water-repellent loden on the outside
- Fluffy and soft plush material on the inside
- Variable button closure for optimum adjustment
- Adjustable neck strap
- Attached muff with 2 large openings
- Including carrying strap

MATERIAL & SPECS

Item-No.: 92130
Dimensions: 150x180 cm | Weight: 2,500g
Insulation: G-LOFT® Hi 300g/m2, 100% polyester
Outer fabric: 75% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyester

LODEN ANSITZSACK STANDARD

LODEN TREE STAND SUIT STANDARD

The Loden Tree Stand Suit is your indispensable hunting companion in low temperatures. The sturdy adjustable shoulder straps ensure optimum fit. The muff on the front provides space for small utensils and keeps your hands warm.

FEATURES

- Pleasantly soft loden on the outside
- Fine warp-knit fabric on the inside
- Strong nylon shoulder straps with attachment buckles
- 2-way zip on the side
- Attached muff with 2 large openings

MATERIAL & SPECS

Item-No.: 92113
Dimensions: 175x75 cm | Weight: 2.000g
Insulation: G-LOFT® Hi 300g/m², 100% polyester
Outer fabric: 30% wool, 30% polyacrylic, 32% polyester, 3% polyamide, 5% other fibers
Inner lining: 100% polyamide

LODEN ANSITZSACK FELL

LODEN TREE STAND SUIT WITH SYNTHETIC FUR

The fluffy and soft lining makes this insulating suit so comfortable and keeps you warm even in extremely low temperatures. A drawcord at the chest height prevents heat loss. Convenient and easy to open and take off with its zip in the middle. And there is no need to take it off entirely when you want to change position: a leather flap at the bottom means it folds to the back or front where it can be secured with a button. Mobility ensured without having to take the cloak off. The muff on the front has two large openings on the side and keeps your hands warm. The zip pocket inside the muff has space for small utensils. A zip-on footmuff in watertight and rugged material ensures the full-body insulating suit stays clean.

FEATURES

- High-quality, water-repellent loden on the outside
- Fluffy and soft plush material on the inside
- Strong, adjustable loden shoulder straps
- Bottom end can be folded up by means of a leather strap and secured with a button
- 2-way zip in the middle along the entire length
- Drawcord in the chest area can be adjusted single-handedly
- Attached muff with 2 large openings
- Integrated zip pocket inside the muff
- Zip-on & washable inner footmuff
- Including carrying strap

 Inner lining: 100% polyester
 Sizes: M-XL

ANSITZJACKE & FUSSTEIL WEBPELZ

TREE STAND JACKET & FOOTMUFF WITH SYNTHETIC FUR

The jacket and footmuff for the tree stand are lined with synthetic fur and have been designed for the most extreme conditions. The 2-in-1 system ensures that it can be worn as a coat and as a body suit. The model is available in three sizes for men and women (female hunters may want to choose the medium size). The entire bottom part can be taken off; it can be folded backward by means of two leather flaps in the area of the hips and secured with a button. The footmuff from water-resistant and rugged material can be attached to the cloak by means of a zip and keeps the bottom of the cloak free from dirt.

FEATURES

- High-quality, water-repellent loden on the outside
- Fluffy and soft plush material on the inside
- Stand-up collar that can be buttoned down
- 2-way zips
- Tailored wind stopper with clamping guard
- 2 large-sized muff pockets with zip inside
- 2 pass-through openings underneath the muff pockets on the side
- Thermal fleece wrist warmer
- Bottom end can be folded up by means of a leather strap and secured with a button
- Drawcord in the knee area can be adjusted single-handedly
- Zip-on & washable inner footmuff
- Carrying system with strap

APPAREL

G-LOFT® ULTRA LODEN VEST

The G-LOFT® Ultra Loden vest is light-weight, warm and nicely tailored. Particularly soft napped loden on the outside and G-LOFT® inside – the perfect combination. With its elastic details around the shoulders and on the sides it hugs your body.

FEATURES

- Fitted collar
- 2-way zip on the front
- Wind breaker with chin guard
- Covered zip
- Elastic thermal stretch fleece inserts on the side
- 2 large pockets on the side
- 1 Napoleon zip pocket on the chest
- Elastic cuffs & waist

MATERIAL & SPECS

Item-No.: 92610-92650
Color: Olive | Sizes: S-XXL
Weight: 400g (Size M)

Outer fabric: 70% wool, 25% polyamide, 5% alpaka
Inner lining: 100% polyamide

G-LOFT® HUNTING SHIRT

The G-LOFT® Hunting Shirt is an innovative functional shirt that can be worn as the perfect mid-layer or as a stand-alone garment. It matches perfectly with all Carinthia hunting jackets and in combination with the jacket keeps you warm when temperatures drop. Made from Techno Wool and highly breathable fabrics it ensures your body will always be dry, because any moisture is immediately released to the outside. The unique G-LOFT® filling guarantees additional warmth. The collar covers the chin and protects your neck from the weather and the cold. The extended sleeves with thumb hole protect the back of your hands and makes it easy to put on additional layers.

FEATURES

- 2 large side pockets
- 2 large inside pockets with zip
- Covered zip (quiet)
- Extended sleeves with thumb hole
- High collar (chin guard)
- Elastic cuffs & waist

MATERIAL & SPECS

Item-No.: L092910-L092914
Colors: Olive, Black | Sizes: S-XXL
Weight: 680g (Size L)
Insulation: G-LOFT® STi 20g/m², 100% polyester
Outer fabric: Techno Wool (51% polyester, 35% wool, 14% polyamide)
Inner lining: 100% polyester

G-LOFT® TLLG JACKET

TLLG stands for Technical Light Loden Garment. The finest South Tyrolean napped loden plus thermal stretch inserts on the sides, sleeves and shoulders are what makes this jacket so incredibly flexible. A dynamic, low-noise hunting jacket. The perfect outfit for both drive and stalking hunts thanks to its preformed sleeves for quick aiming and the waisted cut. The trimmings on the shoulders protect you from branches or shrubs. The TLLG can be combined with other Carinthia hunting jackets and with its light-weight insulation, this is the ideal garment for seasonal transition times. The TLLG Jacket stands out with its appealing design, functionality and versatility and cuts a good figure also in other activities than hunting.

FEATURES

- 2 large side pockets
- 2 large inside pockets with zip
- Covered zips (quiet)
- Zip pocket on the lower left arm
- Anatomically shaped sleeves
- Reinforced shoulders and upper arms
- Soft inside collar from thermal fleece
- Elastic inserts from thermal stretch fleece on the sides, arms and back
- Mesh insert underneath the arms for optimum body climate

MATERIAL & SPECS

Item-No.: L092900-L092904
 Colors: Olive, Grey | Sizes: S-XXL
 Weight: 690g (Size L)
 Insulation: G-LOFT® STi 30g/m², 100% polyester
 Outer fabric: 75% virgin wool, 25% polyamide
 Inner lining: 100% polyester

LODEN

Natural product with tradition

Loden is a natural product with a very long tradition that ensures outstanding wearing comfort. It was originally developed by Alpine farmers as a cloth to protect them in extreme weather conditions. Over time, this material that is unique in the world has been developed further, improved and adjusted to contemporary tastes.

The craft production process has never been changed in all these years of development. The same methods that achieved perfection over a century ago are still employed – but now with the addition of the latest technology and state-of-the-art machinery. We at CARINTHIA use only high-quality South Tyrolean premium loden. We use this premium material for our well-known CARINTHIA design because of its special features that have stood the test of time for hundreds of years.

Special properties:

Extremely durable
Quiet and non-rustle

Temperature regulating

highly breathable

Best protection against the cold

water repellent

Long life

G-LOFT® ILG JACKET

ILG stands for Insulated Loden Garment. The newly developed garment is a versatile all-year-round jacket. Worn alone or underneath an additional layer, the G-LOFT® ILG is thoroughgoing. With the preformed elbows it is popular for driven hunts and offers optimum freedom of movement for fast aiming. The inserts cover the shoulders and upper arms to let branches for thorny shrubs slide off. The light ILG jacket is also the perfect companion for stalkers. Thanks to its impregnated loden outer fabric it is quiet and water-repellent. Even when you are not hunting or stalking, the new G-LOFT® ILG jacket stands out with its great design and functional features.

FEATURES

- Soft inner collar made of thermal fleece
- Two large insulated outer pockets with micro fleece
- Two breast pockets
- Anatomically shaped sleeves
- Reinforced shoulder and upper arm area
- Zip pocket on left forearm
- In-line, one-hand adjustable, elastic drawstring hem

MATERIAL & SPECS

Item-No.: L092820-L092824
Color: Olive | Sizes: S-XXL
Weight: 840g (Size M)
Insulation: G-LOFT® Si 40g/m2, 100% polyester
Outer fabric: 75 % virgin wool, 25 % polyamide, napped loden
Inner lining: 100% polyamide

G-LOFT® MILG JACKET

MILG stands for Medium Insulation Loden Garment. The jacket is not only the perfect garment for the tree stand, but also for any task in the forest, the gamekeeper rounds and work with your gun dog. The outer fabric is high-quality napped loden. The jacket is completely quiet and perfect for stalking and all hunting grounds where the game is particularly sensitive to noise. It has a large pocket on the lower back that holds utensils such as tracking line, retrieving devices, etc. Thanks to the PU coating, the pocket is watertight and can be cleaned with water. The design of the hood ensures that the entire head is kept warm without obstructing the view.

FEATURES

- Lined hood, adjustable in two directions
- Ventilation openings
- 2-way front zip with wind breaker and chin guard
- 2 large outside pockets lined with thermal fleece
- 2 chest pockets
- 2 inside pockets with zip
- 3 pockets on the sleeves
- Elastic drawcord on the waist can be adjusted single-handedly
- Preformed sleeves that can be adjusted in width

Insulation: G-LOFT® Si, body 125 g/m², arms 80 g/m², 100% polyester
Outer fabric: 70% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyamide
Sizes: S-XXL
Weight: 1.200g (Size M)
Color: Olive - Loden

G-LOFT® LODEN PARKA

The G-LOFT® Loden Parka is your perfect winter companion. Its rugged design combined with the outstanding thermal capacity ensures optimum protection against the cold. The outer fabric is high-quality, water-repellent loden; the insulation is G-LOFT®. The detachable and adjustable storm hood and the wind flap with chin guard are an extra weather protection. The many integrated inside and outside pockets provide enough space for all the utensils you need. Another valuable detail for keeping you warm is the thermal fleece wrist warmer. The G-LOFT®/loden combination makes this non-rustle parka an indispensable hunting garment.

FEATURES

- Zip-off hood, with elastic drawcords, adjustable in three directions
- G-LOFT® reinforced hood with hidden button
- Width-adjustable collar
- 2-way front zip
- Zip cover with buttons
- 2 chest pockets
- 2 large outside pockets with ammunition loops
- 1 Napoleon pocket underneath the cover strip
- 2 large inside pockets with zip
- Preformed sleeves that can be adjusted in width
- Elastic waist adjustment
- Thermal fleece wrist warmer
- Elastic, inside drawcord on the bottom can be adjusted single-handedly
- Including packing bag

MATERIAL & SPECS

Weight: 1.900g (Size M)
Insulation: G-LOFT® Si, 100% polyester, body 145g/m², arms 110g/m²
Outer fabric: 70% wool, 20% polyamide, 5% polyester
Inner lining: 100% polyamide

G-LOFT® LODEN TROUSERS

The perfect match for the parka are the new G-LOFT® Loden Trousers. The covered zip on the side make it very easy to pull them on. Additional features are ammunition loops in the side pockets and a knife pocket on the right leg. The trousers ensure you have outstanding thermal capacity plus maximum freedom of movement. The preformed and reinforced knee area adds to its ruggedness and protects you from the cold. The zip-on inner trousers are another unique feature that make the trousers even warmer. The trousers by themselves or in combination with the G-LOFT® Loden Parka guarantee perfect protection against the cold and maximum freedom of movement.

FEATURES

- Elastic waistband with button and belt loops
- Inside loops for the attachment of braces
- Covered zip on the side from the bottom up to the knee for convenient dressing
- Two large side pockets with ammunition loops
- Knife pocket on the right leg
- Reinforced, anatomically shaped knee area
- Reinforced on the inner legs and bottom of the legs
- Leg cuffs with drawcord inside
- Sturdy shoe hook for attachment to the shoes
- Zip-on inside trousers for added insulation
- Including packing bag
